- Redux/Zustand

## SOFT SKILLS

- Detail Oriented
- Time management
- Problem-solving
- Open to Feedback

## LANGUAGES

- English (Upper Intermediate/B2)
- Filipino (Upper Intermediate/B2)

## PROFILE

Frontend React Developer specializing in creating responsive and performant user interfaces using React and Next.js. Developed projects that emphasize frontend optimization techniques such as server-side rendering, progressive streaming with React Suspense, caching strategies, SEO improvements, and smooth animation performance. Dedicated to writing maintainable code and continuously expanding technical expertise.

## PROJECTS

### GulbinDev | Frontend React Web Developer Portfolio

Frontend Developer 2026 - PRESENT

- A portfolio platform designed to present my frontend React expertise, support strong search engine indexability, and ensure a responsive interface. Optimized GSAP animation executions to maintain smooth performance at initial load.

### CrunchTime | Movie List Demo

Frontend Developer 2026 - PRESENT

- A demonstration website featuring a movie list that highlights my skills in building a fast and responsive site, especially when working with backend data.
- It uses NextJS RSC to reduce the amount of client-side JavaScript sent to the browser, with server-side data caching and progressive streaming through React Suspense to improve perceived performance and lower TTFB.

## EDUCATION

**Bachelor of Science Information Technology** 2021 - 2025  
Gingoog City Colleges, Inc.
